## Description

Ubiquiti Network-Managed ULED Panel and Dimmer Switch. UniFi Dimmer Switch Uses 802.3af PoE power and lets you directly control one or multiple LED Panels. You can switch panels on/off or adjust their brightness (10-100%). Ubiquiti Networks introduces the ultimate in lighting efficiency and convenience.

Connect both power and data with a single Ethernet cable using 802.3at, no need for special equipment or a qualified electrician.

Ubiquiti Networks has added the UniFi® EoT (Enterprise of Things) product family to their range. Targeted for businesses of all sizes, UniFi EoT is designed to blend seamlessly into existing deployments of UniFi network systems.

### Features

Control Flexibility with UniFi ULED Controller

Safe, Economical Installation

Deployment Versatility

Network Manageable

Device Status and Statistics

## Specifications

### Details

Manufacturer's Product Code	UDIM-AT
Dimensions	71 x 115 x 25 mm (2.8 x 4.53 x 0.98")
Weight	90 g (3.2 oz)
Management Interface	UniFi LED Controller, UniFi LEDApp
Networking Interface	10/100 Ethernet Port
Buttons	Reset
LEDs	Status
Power Method	802.3af PoE
Power Supply	UniFi Switch (802.3af)
Supported Voltage Range	48V
Max. Power Consumption	5W
Max. LED Panels per Dimmer Switch	128 (Recommended)
Operating Temperature	0 to 40° C (32 to 104° F)
Operating Humidity	10 to 90% Noncondensing
Certifications	CE, FCC, IC
