

EN60GB-10

10G PoE Injector

Overview

EN60GB-10 is an indoor single-port PoE Injector. It provides 55Vdc, 1.1A power for remote PDs and supports 10/100/1000/2500/5000/10000Mbps data transmission. It is suitable for high power up to 60W PDs, such as wireless APs, Network cameras, IP Phones and other high power Ethernet terminals. It fully complies to IEEE802.3af/at/bt standard.

It works with wide input voltage of 100-240VAC 50 or 60Hz. The maximum distance for data transmitting is 328 feet while using Cat5e/Cat6 cables. EN60GB-10 will supply power normally when IEEE802.3af/at/bt PD is detected, but will terminate power supply to non-standard devices.
