

Certification Program

Earn recognition for your proficiency of Ubiquiti's products, platforms, and services

Since 2012, Ubiquiti Academy's certification program has rapidly expanded, overseeing the training of more than 50,000 students worldwide. Choose from different UniFi & UISP courses as you start or develop your career in the dynamically evolving world of IT networking & operator technologies.

UISP UBWS

The UISP Broadband Wireless Specialist (UBWS) is Ubiquiti's one-day, in-class airMAX/airFiber training course for applied learning and entry-level certification. Be introduced to Ubiquiti's powerful wireless products, learn best practices in outdoor wireless networking, and get hands-on practice with airMAX AC equipment in an instructor-led classroom.

Course Outline

The Ubiquiti Network

- WISP Past & Present
- Service Providers

Point-to-Point Links

- Radios & Antennas
- Ubiquiti airOS
- Wireless Settings
