

# Certification Program

Earn recognition for your proficiency of Ubiquiti's products, platforms, and services

Since 2012, Ubiquiti Academy's certification program has rapidly expanded, overseeing the training of more than 50,000 students worldwide. Choose from different UniFi & UISP courses as you start or develop your career in the dynamically evolving world of IT networking & operator technologies.

**UniFi**  
UWA

The UniFi Wireless Admin (UWA) course is a one-and-a-half to two-day, in-class training course focused on the most important concepts in Enterprise Wireless Networking, with special emphasis on best practices for designing/managing UniFi WLANs. Learn with hands-on lab activities using Cloud Gateway devices, as well as the latest generation of UniFi APs.

## Course Outline

Intro to UniFi WLANs

RF Fundamentals

802.11 Networking

WLAN Planning & Design

WLAN Deployment

WLAN Troubleshooting
